25 HIGH SCHOOLS COMPETE FOR HONORS APRIL 24.

61 1914 ENTRIES TO COME; 3 MADE RECORDS

Same Number Enrolled for Athletic Contest as Last Lear—Several Local Students Try Again.

Up to date exactly the same number of high school athletes have entered the northwest Missouri inter-high school track meet as contested last year.

Corresponding Secretary H. P. Swinehart now has on record 196 men who will contest in the track meet to be held here April 24. Of this number 61 took part in the meet last year. Three of the athletes who broke records at the last year's meet will contest again this year. Younger of Maitland, holder of the pole vault record; Castle of St. Joseph Central, holder of the 220-yard low hurdle record, and White of Tarkio, who holds the high mark in the shot put, will return this year and endeavor to better their marks of last spring.

TO SELL HUGHES ROAD BONDS

Bids for $30,000 Issue Will Be Received Here May 7—Money Ready July 1.

Advertisements for bids May 7 for the special $30,000 bridge bond issue provided recently by Hughes township were ordered this morning by County Clerk Fred J. Yeomans and George Pat Wright, who is handling the legal features of the proposition. The provisions are that all bids shall be submitted to County Clerk Yeomans by May 7, and that they shall not be sold at less than par nor draw more than 6 per cent interest.

It is the belief of Mr. Wright, however, that they will draw some premium and that an interest rate of about 5 per cent can be secured, on account of better financial condition now and of the absolute surety of the bonds. The law provides that they shall be paid in not more than fifteen annual payments, the first to be July 1, 1916, and the last in 1930.

Money Available July 1.

All bonds are to be dated July 1, 1915, when it is expected the bonds can be sold and approved by the state and the purchasers and the money delivered to the proper authorities. It is therefore believed that much of the bridge and culvert improvement work in the southwest township of this county can be begun before fall begins.

The bonds are to be divided into amounts of $500 each, the first two to be paid next year and between two and five each year thereafter until all are paid. After five years, however, the remaining amount may be taken up, if the township so desires. Interest is to be paid semi-annually, that being in January and in July.

Hughes township voters declared by a vote of 209 to 93, March 30, for the improvement bonds, or by 9 votes more than necessary for a two-thirds majority as the law requires.

Germany Reports Attacking Party Lacks Vigor—Suffer Heavy Losses In New Trial, Too.

By American Press.

Berlin, April 15.—The German war office today gave out this report on the situation in the Carpathians "The Russian attempt, as that at Przemysl, to force the invasion of Hungary has resulted in failure. Endeavors of the Russians to get through Lupiokow and the East Dunkla passes were not successful, and the Russian attack at Scztropko and Felorzeburz have definitely come to an end.

"The Russians, consequently, are attacking further to the east, but were repulsed near Koziawo with heavy losses. The attacking strength of the Russians has evidently lessened."

Maryville Musicians National Guardsmen—Company F to Elect Next Week.

The Maryville band has been approved by Adjutant General John B. O'Meara of Missouri, as the official Fourth regiment band of the National Guards of Missouri, according to notice received here yesterday by T. B. Maulding, chief musician.

It was required that at least twenty-eight men enlist into the military band. Such requirement was met a few days ago, and the men are now awaiting the arrival of military uniforms and equipment.

The National Guard company here—Company F—will hold an election next Wednesday night to choose a captain and such men for other offices as may be vacant or would be vacated by the election of a captain. Lieutenant Loren DeMotte has been in charge of the company for several months, or since the resignation of Ezra Phipps as captain. Mr. Phipps' resignation was formally accepted this week, so that the choice of a new commander may go forward.

Along with the improvement in militia conditions here, Maryville being made the strongest point in the Fourth regiment, comes official announcement that Company K, St. Joseph, and Company H, at Slater, both of the Fourth regiment, will be mustered out at once on account of inefficiency.

WABASH ADDS 2 TRAINS ON MAY 2

ADDITIONAL PASSENGER SERVICE EACH WAY DAILY PROVIDED.

NOS. 1 AND 14 TO CUT SMALL TOWN STOPS

Present Time Schedule Remains Indefinitely—Increased Traffic Cause of Improvement.

The Wabash will restore passenger trains Nos. 50 and 51 on this line Sunday, May 2, according to official announcement received by local agents. These two trains were taken off last October on account of a decrease in traffic. The time of both will be changed but slightly.

Effective May 2, No. 51, westbound, is due to arrive here at 6:47 a. m., while No. 50, eastbound, is due to arrive at 8:43 p. m. This is nearly like the former time of the trains. The arrangement is made so as to permit westbound passengers to have most of the day to shop in Omaha and return slightly earlier in the evening than under the present schedule.

No. 51, under the old schedule, arrived here at 7:47 a. m., while No. 50 arrived at 8:43 p. m.

To Cut Out Small Station Stops.

Trains No. 50 and No. 51 will operate only between Stanberry and Council Bluffs, Ia., while a new train will be run between Stanberry and Brunswick, effective May 2. This will give virtually an additional train each way daily between Omaha and St. Louis. It is the plan to make Stanberry a division point for all passenger trains.

Effective May 2 also many station stops will be eliminated by passenger trains Nos. 1 and 14. The time will not be changed any for the present, however, according to local officials, but the time probably will be shortened later when it is determined just what time can be made with the small stops eliminated.

Under this arrangement these trains will stop regularly only at the following points between Council Bluffs and Brunswick, Malvern, Shenandoah and Coin, Ia; Burlington Junction, Maryville, Conception Junction, Stanberry, Darlington, Pattonsburg, Gallatin and Chillicothe.

Stops on being flagged will, however, be made at some of the smaller points for St. Louis or Council Bluffs bound passengers or for persons through bound.

OBSERVE DEATH OF LINCOLN.

Postoffice Flag at Half-Mast Today in Memory of President.

The flag at the postoffice is flying at half-mast today in memory of Abraham Lincoln, who died from assassination wounds fifty years ago today. The day is observed in nearly all cities of the country, and particularly in federal offices. President Lincoln was shot April 14, 1865, by John Wilkes Booth, in a theater at Washington, shortly after news reached there that the south had surrendered and the civil war was at an end.

Booth, an actor, was a southern sympathizer. He paid the penalty a few days later by death.

NOT SPACE BUT CARE IN GARDEN.

Government Bulletin Shows How Small Tract Will Provide a Large Family.

A garden of one-quarter to one-half acre is sufficient for an average family and should produce enough vegetables for use throughout the entire year. This fact is brought out in a new farmers' bulletin entitled "The Home Garden in the South," printed by the department of agriculture.

One-fourth of an acre alone can be made to supply a family of six, if close attention is given to the rotation and succession of crops, and interplanting. Where land is plentiful it is recommended that a sufficient area be set aside to allow part of the garden to be planted to a soil-improving crop each year.

The location of permanent crops, such as asparagus, rhubarb and small fruits, should be placed at one side, so they will not be in the way when the garden is plowed.

Missouri is passing other universities in attendance. In the last two years it has jumped from seventeenth to fifteenth place. Meanwhile Kansas university has dropped from nineteenth to twenty-first place. Nebraska has fallen from thirteenth to eighteenth place, Iowa from eighteenth to twentieth and Minnesota from fifth to twelfth place. None of these neighboring universities has made the striking advances in entrance requirements and standards made by the University of Missouri in recent years.

The order of size of some of the larger universities is: Columbia, California, Chicago, Wisconsin, Pennsylvania, Harvard, Michigan, New York, Cornell, Illinois, Ohio, Minnesota, Northwestern, Syracuse, Missouri, Texas, Yale, Nebraska, Pittsburgh, Iowa, Kansas, Tulane, Cincinnati, Indiana, Stanford, Princeton, Western Reserve.

Most, if not all, the universities larger than Missouri have very large summer enrollments:. Columbia had 5,590; Chicago, 3,983; California, 3,179; Wisconsin, 2,602; Michigan, 1,594. The University of Missouri had less than 1,000 in the summer session.

STATE TAX RATE IS CUT.

Reduction from 19 to 18 Cents $100 Valuation is Made.

State Auditor John P. Gordon has certified to the county clerks the state tax rate. The rate is reduced from 19 cents to 18 cents on the $100 assessed valuation.

The forty-eighth general assembly, on the recommendation of the auditor, fixed the state interest rate at 1 cent instead of 2 cents on the $100.

State taxes this year are levied as follows: For state revenue 15 cents on the $100 of assessed value; state interest 1 cent, capitol building bond tax.

Mr. Gordon estimates that the capitol building bond issue of $3,500,000 will be retired in nine years from the date of issue. They were voted to run thirteen years.

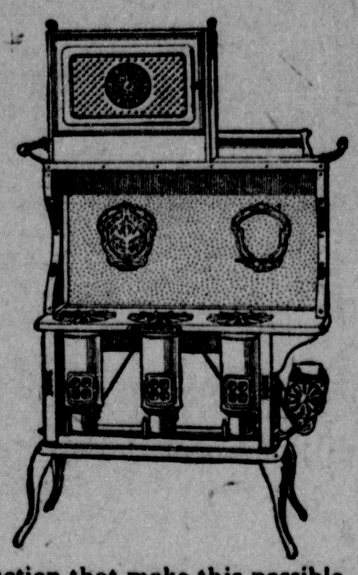
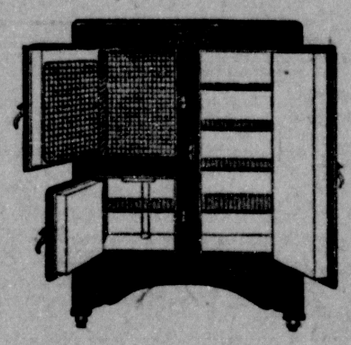
The New Perfection Oil Cooker



Has made it possible to burn the cheapest oil and produce absolutely satisfactory results, and as in all mechanical construction the reason for perfect results is made possible only by adhering to the laws that govern scientific mechanical construction. The New Perfection Cooker was built to produce first, last, and all the time a perfect blue flame from the lowest grade oil, and the fact that there are more New Perfection Oil Cookers sold than any 3 makes is of itself proof of the satisfactory results produced. And it is entirely free from smoke and odor so common in other makes. The combustion is perfect, hence the New Perfection never is the cause of any accidents. Let us show you the points of construction that make this possible.



The Herrick

Through their perfect scientific construction and mineral wool insolation have made it possible to produce more cold dry air per the amount of ice consumed than any other refrigerator; and this fact also makes them the most thorough hygienic and sanitary refrigerator on the market. We will be pleased to show the prospective buyer why this is a fact.

Fortified Tires

Span the Way from Trouble

Goodyear tires have bridged the way for countless men to less trouble and tax. And those men, by their endorsement, brought our last year's output up to 1,479,883 tires.

Why do you suppose that Goodyears hold top place—you who use other tires? They have held that place for years, outselling any other.

The only reason, as you must know, is that Goodyears average best. And that's how they are bound to win you.

The Super-Tire

They are not trouble-proof. Mishaps come to them, misuse affects them, much like other tires.

But Goodyears are Fortified Tires. They protect you in five ways employed by no other maker. They combat five major troubles in unique ways, exclusive to Fortified Tires.

These five extra features cost us fortunes. One alone—our "On-Air" cure—costs us $450,000 yearly. But they save Goodyear users millions of dollars yearly. They avoid countless troubles for them.

Lower Prices

On February 1st we made another big reduction. That makes three in two years, totaling 45 per cent. We are giving you, through mammoth production, the best tire value ever known.

Please prove this, for your own sake, by the tire itself. The following Goodyear Service Stations will supply you:

After the election of officers, President Hellmers announced the chairmen of the eight Commercial club committees. TO SELL HUGHES ROAD BONDS

Bids for $30,000 Issue Will Be Received Here May 7—Money Ready July 1.

Advertisements for bids May 7 for the special $30,000 bridge bond issue provided recently by Hughes township were ordered this morning by County Clerk Fred J. Yeomans and George Pat Wright, who is handling the legal features of the proposition. The provisions are that all bids shall be submitted to County Clerk Yeomans by May 7, and that they shall not be sold at less than par nor draw more than 6 per cent interest.

It is the belief of Mr. Wright, however, that they will draw some premium and that an interest rate of about 5 per cent can be secured, on account of better financial condition now and of the absolute surety of the bonds. The law provides that they shall be paid in not more than fifteen annual payments, the first to be July 1, 1916, and the last in 1930.

Money Available July 1.

All bonds are to be dated July 1, 1915, when it is expected the bonds can be sold and approved by the state and the purchasers and the money delivered to the proper authorities. It is therefore believed that much of the bridge and culvert improvement work in the southwest township of this county can be begun before fall begins.

The bonds are to be divided into amounts of $500 each, the first two to be paid next year and between two and five each year thereafter until all are paid. After five years, however, the remaining amount may be taken up, if the township so desires. Interest is to be paid semi-annually, that being in January and in July.

Hughes township voters declared by a vote of 209 to 93, March 30, for the improvement bonds, or by 9 votes more than necessary for a two-thirds majority as the law requires.

Maryville Musicians National Guardsmen—Company F to Elect Next Week.

The Maryville band has been approved by Adjutant General John B. O'Meara of Missouri, as the official Fourth regiment band of the National Guards of Missouri, according to notice received here yesterday by T. B. Maulding, chief musician.

It was required that at least twenty-eight men enlist into the military band. Such requirement was met a few days ago, and the men are now awaiting the arrival of military uniforms and equipment.

The National Guard company here—Company F—will hold an election next Wednesday night to choose a captain and such men for other offices as may be vacant or would be vacated by the election of a captain. Lieutenant Loren DeMotte has been in charge of the company for several months, or since the resignation of Ezra Phipps as captain. Mr. Phipps' resignation was formally accepted this week, so that the choice of a new commander may go forward.

Along with the improvement in militia conditions here, Maryville being made the strongest point in the Fourth regiment, comes official announcement that Company K, St. Joseph, and Company H, at Slater, both of the Fourth regiment, will be mustered out at once on account of inefficiency.

WABASH ADDS 2 TRAINS ON MAY 2

ADDITIONAL PASSENGER SERVICE EACH WAY DAILY PROVIDED.

NOS. 1 AND 14 TO CUT SMALL TOWN STOPS

Present Time Schedule Remains Indefinitely—Increased Traffic Cause of Improvement.

The Wabash will restore passenger trains Nos. 50 and 51 on this line Sunday, May 2, according to official announcement received by local agents. These two trains were taken off last October on account of a decrease in traffic. The time of both will be changed but slightly.

Effective May 2, No. 51, westbound, is due to arrive here at 6:47 a. m., while No. 50, eastbound, is due to arrive at 8:43 p. m. This is nearly like the former time of the trains. The arrangement is made so as to permit westbound passengers to have most of the day to shop in Omaha and return slightly earlier in the evening than under the present schedule.

No. 51, under the old schedule, arrived here at 7.47 a. m., while No. 50 arrived at 8:43 p. m.

To Cut Out Small Station Stops.

Trains No. 50 and No. 51 will operate only between Stanberry and Council Bluffs, Ia., while a new train will be run between Stanberry and Brunswick, effective May 2. This will give virtually an additional train each way daily between Omaha and St. Louis. It is the plan to make Stanberry a division point for all passenger trains.

Effective May 2 also many station stops will be eliminated by passenger trains Nos. 1 and 14. The time will not be changed any for the present, however, according to local officials, but the time probably will be shortened later when it is determined just what time can be made with the small stops eliminated.

Under this arrangement these trains will stop regularly only at the following points between Council Bluffs and Brunswick, Malvern, Shenandoah and Coin, Ia; Burlington Junction, Maryville, Conception Junction, Stanberry, Darlington, Pattonsburg, Gallatin and Chillicothe.

Stops on being flagged will, however, be made at some of the smaller points for St. Louis or Council Bluffs bound passengers or for persons through bound.

OBSERVE DEATH OF LINCOLN.

Postoffice Flag at Half-Mast Today in Memory of President.

The flag at the postoffice is flying at half-mast today in memory of Abraham Lincoln, who died from assassination wounds fifty years ago today. The day is observed in nearly all cities of the country, and particularly in federal offices. President Lincoln was shot April 14, 1865, by John Wilkes Booth, in a theater at Washington, shortly after news reached there that the south had surrendered and the civil war was at an end.

Booth, an actor, was a southern sympathizer. He paid the penalty a few days later by death.

NOT SPACE BUT CARE IN GARDEN.

Government Bulletin Shows How Small Tract Will Provide a Large Family.

A garden of one-quarter to one-half acre is sufficient for an average family and should produce enough vegetables for use throughout the entire year. This fact is brought out in a new farmers' bulletin entitled "The Home Garden in the South," printed by the department of agriculture.

One-fourth of an acre alone can be made to supply a family of six, if close attention is given to the rotation and succession of crops, and interplanting. Where land is plentiful it is recommended that a sufficient area be set aside to allow part of the garden to be planted to a soil-improving crop each year.

The location of permanent crops, such as asparagus, rhubarb and small fruits, should be placed at one side, so they will not be in the way when the garden is plowed.

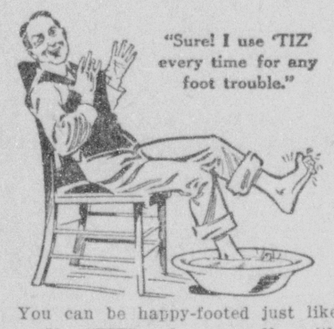
USE "TIZ" IF FEET ACHE, BURN, PUFF UP

"Ah! Nothing Like 'TIZ' for Sore, Tired, Sweaty, Calloused Feet and Corns—It's Grand!"



You can be happy-footed just like me. Use "TIZ" and never suffer with tender, raw, burning, blistered, swollen, tired, smelly feet. "TIZ" and only "TIZ" takes the pain and soreness out of corns, callouses and bunions.

As soon as you put your feet in a "TIZ" bath, you just feel the happiness soaking in. How good your poor, old feet feel. They want to dance for joy. "TIZ" is grand. "TIZ" instantly draws out all the poisonous exudations which puff up your feet and cause sore, inflamed, aching, sweaty, smelly feet.

Get a 25-cent box of "TIZ" at any drug store or department store. Get instant foot relief. Laugh at foot sufferers who complain. Because your feet are never, never going to bother or make you limp any more.

BASEBALL FOR HOPKINS, TOO.

Rushville School Head Will Coach County Team—To Play Here.

Hopkins is to have a base ball team this season, with Prof. Thomas, superintendent of the Rushville schools, as coach, according to present plans. He is to receive $75 a month. He was formerly a professional ball player. Prof. Thomas is expected to take charge of the team the first of May.

It is expected that the team will secure games both at home and away from home with some of the better class amateur teams of northwest Missouri and southern Iowa. Maryville will be included in the itinerary if a team is formed here.

HOPKINS PLANS CLEAN-UP WEEK.

North County Town Officials Set Aside April 19 to 24 for Bettering City.

Hopkins is also to have a clean-up this year. The city council has, this week, ordered that a "clean-up-week," beginning Monday, April 19, and ending Saturday night, April 24, be set aside as a time to improve the appearance and sanitation of Hopkins.

The city also expects "to keep the streets mowed this summer," according to the council's proclamation, and citizens are requested in this proclamation "to remove wire and rubbish from the streets so that it will not hinder the mowers from running."

State University Goes Up from Seventeenth Place to Fifteenth Among State Universities.

Missouri is passing other universities in attendance. In the last two years it has jumped from seventeenth to fifteenth place. Meanwhile Kansas university has dropped from nineteenth to twenty-first place. Nebraska has fallen from thirteenth to eighteenth place, Iowa from eighteenth to twentieth and Minnesota from fifth to twelfth place. None of these neighboring universities has made the striking advances in entrance requirements and standards made by the University of Missouri in recent years.

The order of size of some of the larger universities is: Columbia, California, Chicago, Wisconsin, Pennsylvania, Harvard, Michigan, New York, Cornell, Illinois, Ohio, Minnesota, Northwestern, Syracuse, Missouri, Texas, Yale, Nebraska, Pittsburgh, Iowa, Kansas, Tulane, Cincinnati, Indiana, Stanford, Princeton, Western Reserve.

Most, if not all, the universities larger than Missouri have very large summer enrollments:. Columbia had 5,590; Chicago, 3,983; California, 3,179; Wisconsin, 2,602; Michigan, 1,594. The University of Missouri had less than 1,000 in the summer session.

STATE TAX RATE IS CUT.

Reduction from 19 to 18 Cents $100 Valuation is Made.

State Auditor John P. Gordon has certified to the county clerks the state tax rate. The rate is reduced from 19 cents to 18 cents on the $100 assessed valuation.

The forty-eighth general assembly, on the recommendation of the auditor, fixed the state interest rate at 1 cent instead of 2 cents on the $100.

State taxes this year are levied as follows: For state revenue 15 cents on the $100 of assessed value; state interest 1 cent, capitol building bond tax.

Mr. Gordon estimates that the capitol building bond issue of $3,500,000 will be retired in nine years from the date of issue. They were voted to run thirteen years.

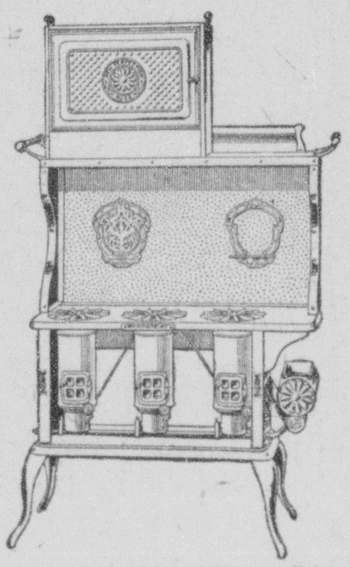
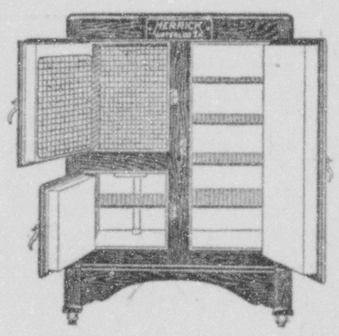
The New Perfection Oil Cooker



Has made it possible to burn the cheapest oil and produce absolutely satisfactory results, and as in all mechanical construction the reason for perfect results is made possible only by adhering to the laws that govern scientific mechanical construction. The New Perfection Cooker was built to produce first, last, and all the time a perfect blue flame from the lowest grade oil, and the fact that there are more New Perfection Oil Cookers sold than any 3 makes is of itself proof of the satisfactory results produced. And it is entirely free from smoke and odor so common in other makes. The combustion is perfect, hence the New Perfection never is the cause of any accidents. Let us show you the points of construction that make this possible.

The Herrick



Through their perfect scientific construction and mineral wool insolation have made it possible to produce more cold dry air per the amount of ice consumed than any other refrigerator; and this fact also makes them the most thorough hygienic and sanitary refrigerator on the market. We will be pleased to show the prospective buyer why this is a fact.

Fortified Tires

Span the Way from Trouble

Goodyear tires have bridged the way for countless men to less trouble and tax. And those men, by their endorsement, brought our last year's output up to 1,479,883 tires.

Why do you suppose that Goodyears hold top place—you who use other tires? They have held that place for years, outselling any other.

The only reason, as you must know, is that Goodyears average best. And that's how they are bound to win you.

The Super-Tire

They are not trouble-proof. Mishaps come to them, misuse affects them, much like other tires.

But Goodyears are Fortified Tires. They protect you in five ways employed by no other maker. They combat five major troubles in unique ways, exclusive to Fortified Tires.

These five extra features cost us fortunes. One alone—our "On-Air" cure—costs us $450,000 yearly. But they save Goodyear users millions of dollars yearly. They avoid countless troubles for them.

Lower Prices

On February 1st we made another big reduction. That makes three in two years, totaling 45 per cent. We are giving you, through mammoth production, the best tire value ever known.

Please prove this, for your own sake, by the tire itself. The following Goodyear Service Stations will supply you:
